

Installation Guide for End-of-day / Professional Version

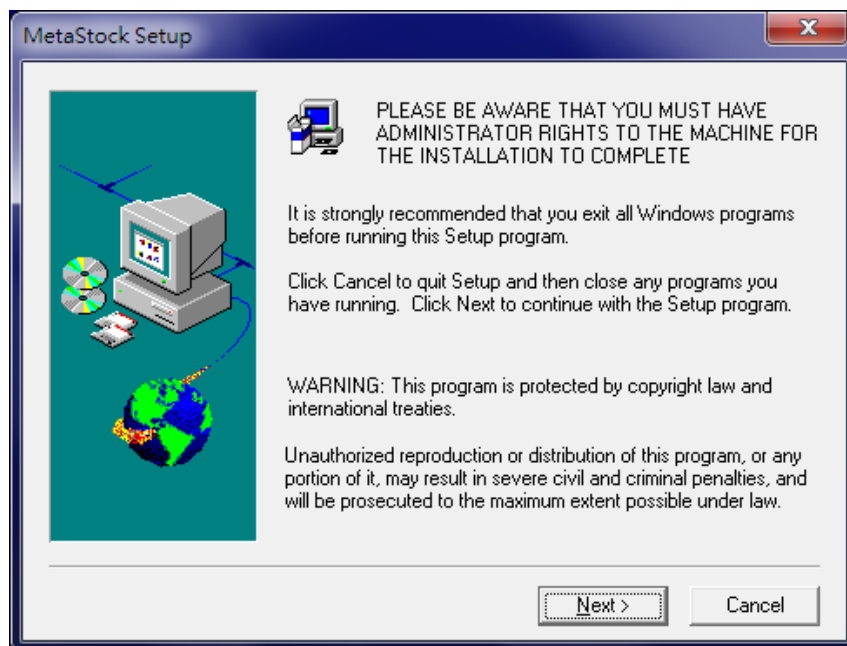

Metastock 11 Minimum System Requirement:

- Windows 7, Windows Vista 32-bit, XP 32-bit
- 1 GHz processor, 1GB RAM
- 1GB Hard Disk Space

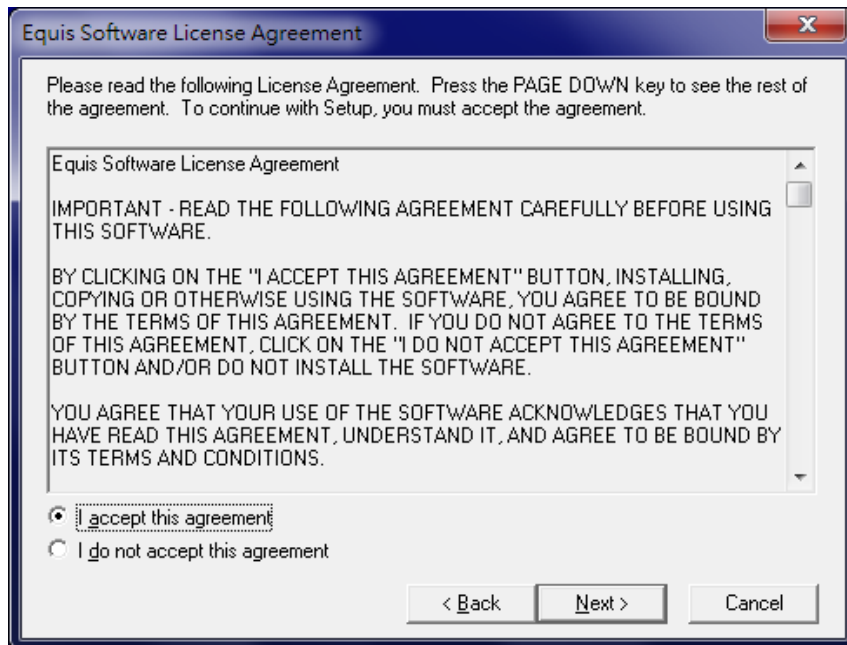

Auto Setup will run when you insert MetaStock Installation CD. If it does not, you have to run it manually by double-clicking the Setup.exe in your CD Drive.

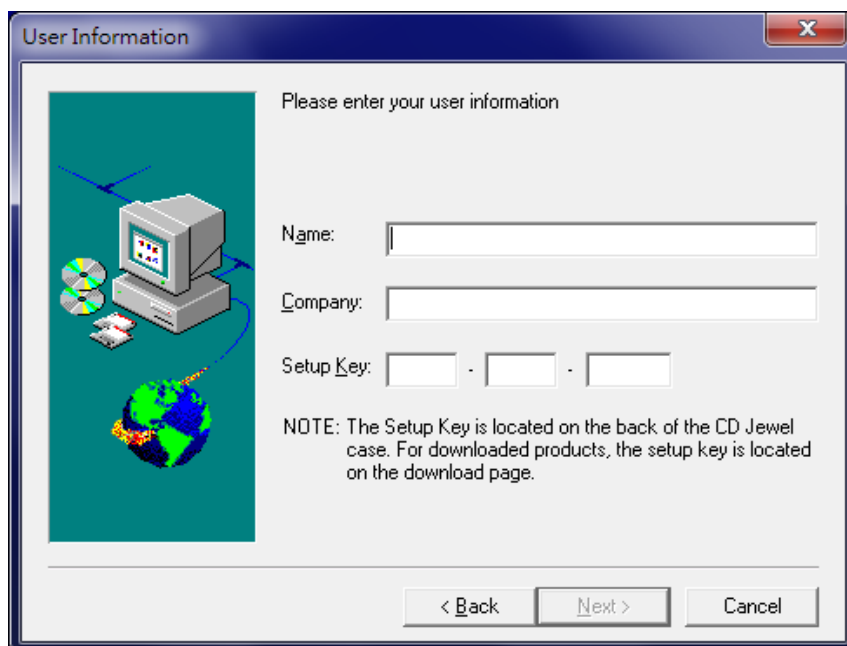

- 1) The installation programme appears, click "Next".

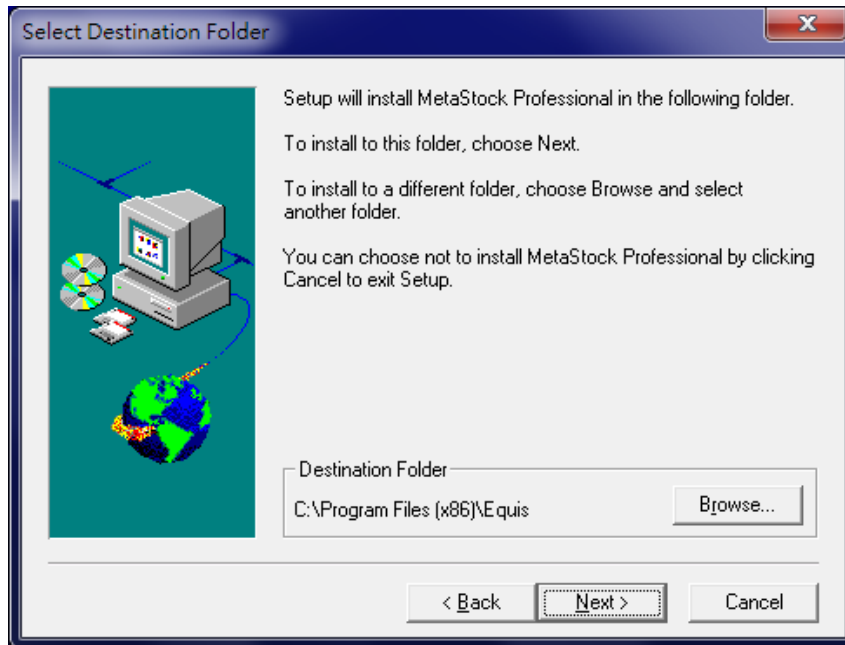

- 2) Accept the agreement after reading it and press “accept this agreement”.

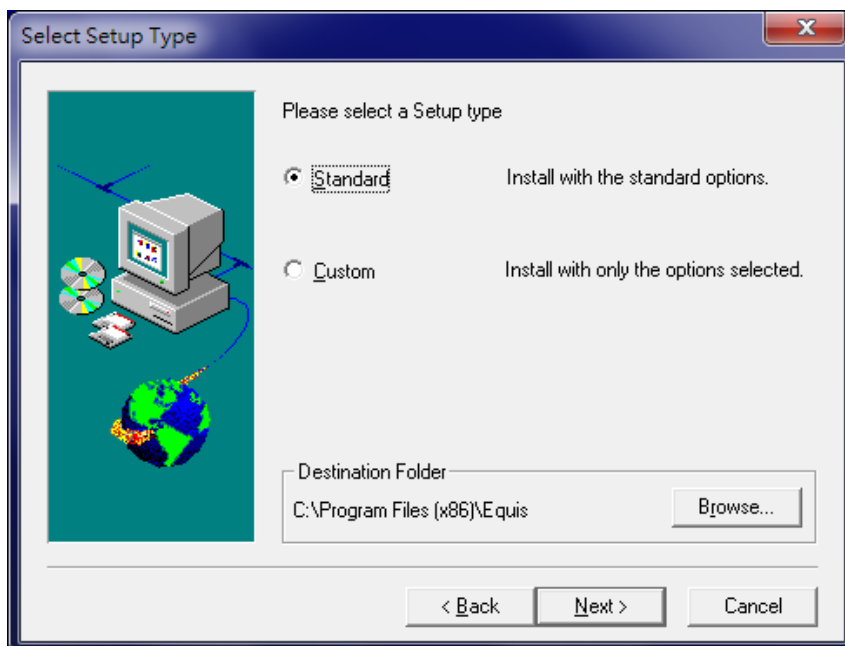

- 3) Enter the user name, also the Setup Key.

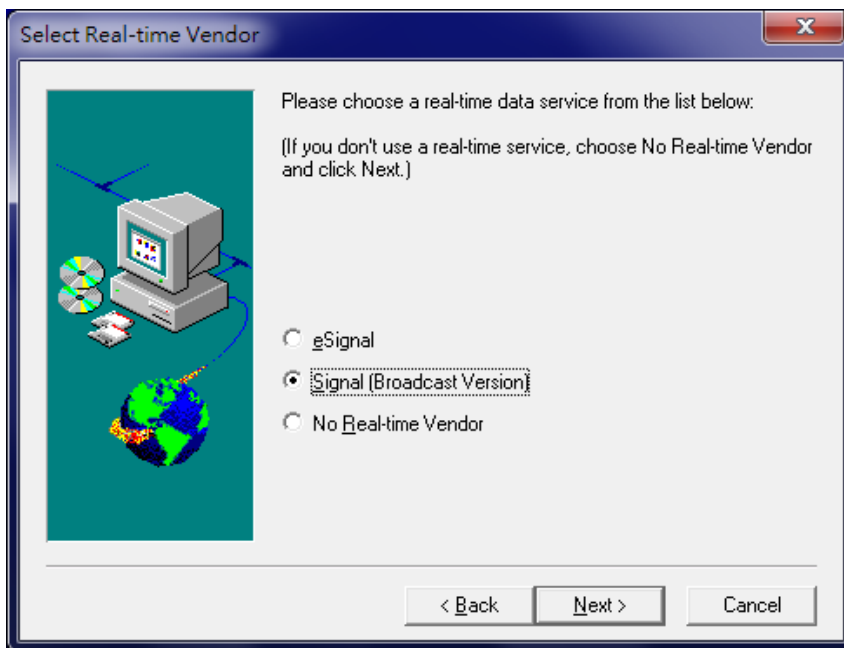

- 4) Choose your desire disk to install MetaStock to and click “Next”.

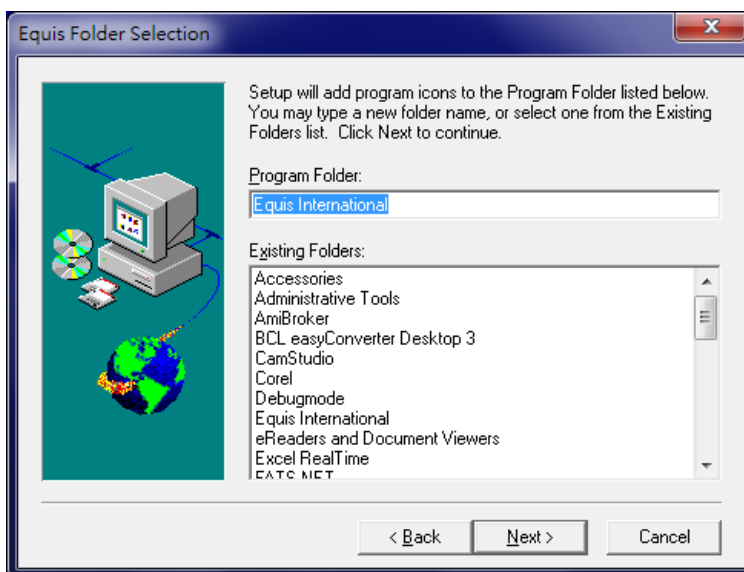

- 5) Choose the type of setup you prefer and click “Next”.

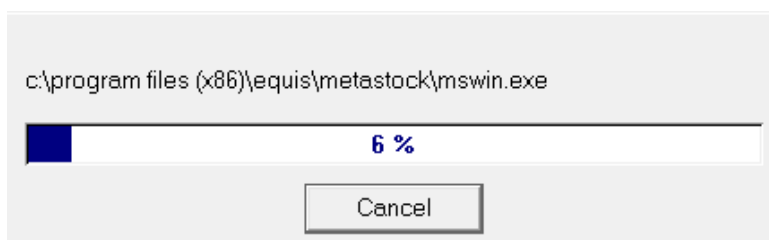

- 6) If you are installing MetaStock Professional version you have to choose “Signal (Broadcast Verstion)”. Note: This option does not appear in End of Day Version.

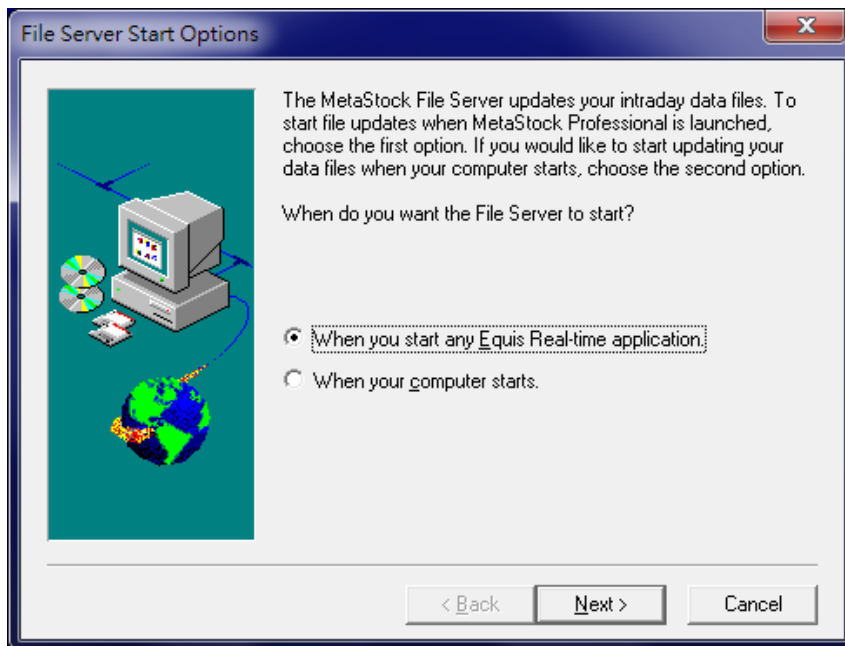

- 7) Set the name of the folder you prefer to appear in Program Files (Default setting can be used if you do not have any preferences) and click “Next”.

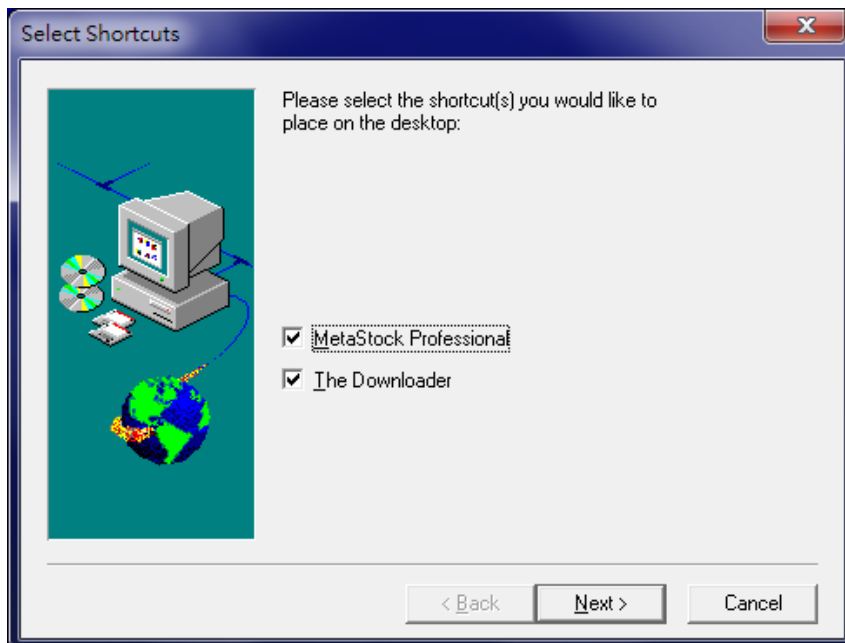

The installation process will then start

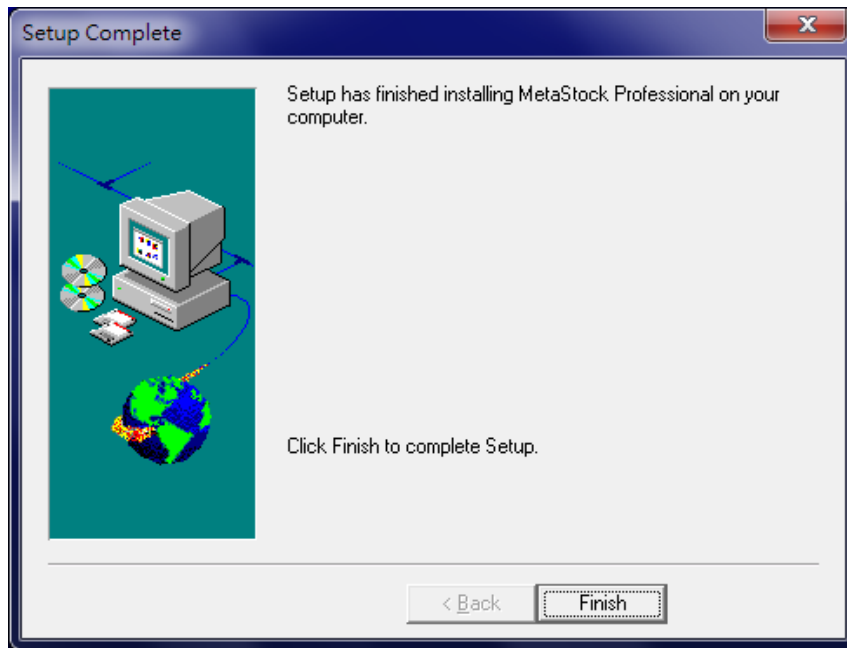

- 8) Set when to start the file server (Default setting can be used if you do not have any preferences) and click "Next".

- 9) Add an shortcut icon in Desktop and click "Next".

- 10) Installation finished, click “Finish” and restart your computer.
